

High Sensitivity Latching Digital Hall-effect Sensor ICs: SS360NT, SS360ST, SS360ST-10K, SS460S, SS460S-T2

32312441
Issue A

Datasheet

DESCRIPTION

The SS360NT, SS360ST, SS360ST-10K, SS460S and SS460S-T2 High Sensitivity Latching Digital Hall-Effect Sensor ICs are small, sensitive and versatile devices that are operated by the magnetic field from a permanent magnet or an electromagnet. They are designed to respond to alternating North and South poles. The SS360NT is turned on by a North pole while the SS360ST, SS460S, and SS460S-T2 are turned on by a South pole.

These sensor ICs offer reliable switching points with a high magnetic sensitivity of 30 G typical (55 G maximum). They do not use chopper stabilization on the Hall element, providing a clean output signal and a faster latch response time when compared to competitive high sensitivity Hall-effect latching sensor ICs which do use chopper stabilization.

These products offer reverse polarity protection, deliver a stable output over a -40 °C to 150 °C [-40 °F to 302 °F] temperature range, and can accept any dc supply voltage from 3 Vdc to 24 Vdc.

For brushless dc motor manufacturers who need latching sensors with reliable, consistent performance for more efficient and smaller designs, Honeywell's High Sensitivity Hall-Effect Latching Digital Sensor ICs respond to low magnetic fields and offer consistent repeatability while delivering faster response times to a change in magnetic field for better motor efficiency.

These products are available in three package styles:

- **SS360NT, SS360ST, SS360ST-10K:** Miniature SOT-23 surface-mount package supplied on pocket tape and reel which allows for compact design with automated component placement.
- **SS460S:** Flat TO-92-style package with straight leads in bulk packaging which allows for compact PC board layout.
- **SS460S-T2:** Flat TO-92-style package with formed leads in ammpack tape-in-box.

FEATURES

- Fastest response time in its class
- No-chopper-stabilization
- High sensitivity
- Latching magnetics
- Wide operating voltage range of 3 Vdc to 24 Vdc
- Built-in reverse voltage
- Durable design
- RoHS-compliant material meets Directive 2002/95

POTENTIAL APPLICATIONS

Industrial/commercial

- Brushless dc motor commutation
- Speed and RPM sensing in electric motors and fans
- Tachometer, counter pickup
- Robotics control
- Flow-rate sensing for appliances

Transportation

- Brushless dc motor commutation
- Electronic window lift, anti-pinch power window systems
- Vehicle convertible roof position

Medical

- Medical equipment using electric motors

PORTFOLIO

The SS360NT, SS360ST, SS360ST-10K, SS460S and SS460S-T2 are part of Honeywell's family of Latching Digital Hall-effect Sensor ICs, including:

- [SS360PT, SS460P, SS460P-T2](#)
- [SS361RT, SS461R](#)
- [SS361CT, SS461C](#)
- [SS46](#)
- [SS461A, SS466A](#)

High Sensitivity Latching Digital Hall-effect Sensor ICs: SS360NT, SS360ST, SS360ST-10K, SS460S, SS460S-T2

Table 1. Electrical and Environmental Specifications

(At $V_{\text{supply}} = 3.0 \text{ Vdc}$ to 24.0 Vdc , 20 mA load, $T_A = -40 \text{ °C}$ to 150 °C [-40 °F to 302 °F] except where otherwise specified.)

Characteristic	Condition	Min.	Typ.	Max.	Unit
Supply voltage					
SS360NT, SS360ST, SS360ST-10K	-40 °C to 125 °C [-40 °F to 257 °F]	3.0	—	24.0	Vdc
SS360NT, SS360ST, SS360ST-10K	150°C [302 °F]	3.0	—	12.0	
SS460S, SS460S-T2	—	3.0	—	24.0	
Supply current	$V_{\text{supply}} = 3 \text{ Vdc}$ at 25 °C [77 °F]	—	3.5	6.0	mA
	—	—	—	8.0	
Output current	—	—	—	20	mA
V_{sat} :					
SS360NT, SS360ST, SS360ST-10K	Gauss > 55	—	—	0.6	V
SS460S, SS460S-T2	15 mA, Gauss > 55	—	—	0.6	
Output leakage current	Gauss < -55	—	—	10.0	μA
Rise/fall time	25 °C [77 °F]	—	—	1.5	μs
Thermal resistance:					
SS360NT, SS360ST, SS360ST-10K	single layer, single sided PCB	—	303	—	°C/W
SS460S, SS460S-T2	—	—	233	—	
Magnetic characteristics:					
operate (Bop)	—	5	30	55	Gauss
release (Brp)	—	-55	-30	-5	
differential	—	40	60	80	
Operating temperature	—	-40 [-40]	—	150 [302]	°C [°F]
Storage temperature:					
SS360NT, SS360ST, SS360ST-10K	—	-40 [-40]	—	150 [302]	°C [°F]
SS460S, SS460S-T2	—	-40 [-40]	—	165 [329]	
Soldering temperature and time:					
SS360NT, SS360ST, SS360ST-10K	infrared reflow process: peak temperature 245 °C [473 °F] for 10 s max. wave soldering process: 250 °C to 260 °C [482 °F to 500 °F] for 3 s max.				
SS460S, SS460S-T2					

NOTICE

These Hall-effect sensor ICs may have an initial output in either the ON or OFF state if powered up with an applied magnetic field in the differential zone (applied magnetic field >Brp and <Bop). Honeywell recommends allowing 10 μs after supply voltage has reached 3 V (SS460S, SS460S-T2) or 5 V (SS360NT, SS360ST, SS360ST-10K) for the output voltage to stabilize.

NOTICE

The magnetic field strength (Gauss) required to cause the switch to change state (operate and release) will be as specified in the magnetic characteristics. To test the switch against the specified limits, the switch must be placed in a uniform magnetic field.

CAUTION
ELECTROSTATIC
SENSITIVE
DEVICES

DO NOT OPEN OR HANDLE
EXCEPT AT A
STATIC FREE WORKSTATION

**ESD SENSITIVITY:
CLASS 2**

Table 2. Absolute Maximum Specifications

Characteristic	Min.	Typ.	Max.	Unit
Supply voltage	-26.0	—	26.0	V
Applied output voltage	-0.5	—	26.0	V
Output current	—	—	20.0	mA
Magnetic flux	—	—	no limit	Gauss

NOTICE

Absolute maximum ratings are the extreme limits the device will momentarily withstand without damage to the device. Electrical and mechanical characteristics are not guaranteed if the rated voltage and/or currents are exceeded, nor will the device necessarily operate at absolute maximum ratings.

Table 3. Order Guide

Catalog Listing	Description	
SS360NT	High sensitivity latching digital Hall-effect sensor IC, North pole activated, SOT-23 package, tape and 178 mm [7 in] reel packaging (3000 units per reel)	
SS360ST	High sensitivity latching digital Hall-effect sensor IC, South pole activated, SOT-23 package, tape and 178 mm [7 in] reel packaging (3000 units per reel)	
SS360ST-10K	High sensitivity latching digital Hall-effect sensor IC, South pole activated, SOT-23 package, tape and 330 mm [13 in] reel packaging (10000 units per reel)	
SS460S	High sensitivity latching digital Hall-effect sensor IC, South pole activated, flat TO-92-style package, straight leads, bulk packaging (1000 units per bag)	
SS460S-T2	High sensitivity latching digital Hall-effect sensor IC, South pole activated, flat TO-92-style package, formed leads, ammopack tape-in-box packaging (5000 units per box)	

ADDITIONAL INFORMATION

▲ WARNING **PERSONAL INJURY**

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

▲ WARNING **MISUSE OF DOCUMENTATION**

- The information presented in this datasheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

Warranty/Remedy

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective.

The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.
