

Mini ISO Relay Connector

CUSTOM CHIEF SOLUTION

Chief took a commonly used component and reengineered it to satisfy industry-wide demands. This weatherproof Mini ISO Relay Connector features push-to-seat terminals and TPAs allowing for maximum terminal retention and effortless wire processing. It sports a built-in grip for easy relay removal and an optional hydrophobic vent to relieve pressure from component produced heat.

Specifications

Component Type:	Shrouded Mini ISO Relay
Temperature Range:	-40 to 125° C Ambient
Wire Sizes:	22 to 10 AWG Wire
Terminal System:	TE MCP 6.3
Electrical Load:	Up to 40 Amps

Competitive Advantages

- Push-to-Seat Terminals
- Built-in Grip for Relay Removal
- High Impact Nylon Body
- Silicone Radial Seal
- Water & Dust Resistant
- Replaces Various Part Numbers*
- Optional Hydrophobic Vent
- Optional Terminal Lock (TPA)
